

**NIDA'S WOMEN & SEX/GENDER
JUNIOR INVESTIGATOR TRAVEL AWARD PROGRAM**

CPDD 2013

Accumulating evidence indicates that the antecedents, consequences, and mechanisms of drug abuse and dependence often differ in males and females and that sex/gender may be an important variable in treatment and prevention outcomes. To foster research on women and sex/gender differences in all areas of drug abuse research, both human and animal, NIDA encourages the submission of abstracts on this topic for the 2013 annual meeting of the College on Problems of Drug Dependence (CPDD).

Special NIDA travel awards of \$750 will be available to up to 30 junior investigators whose CPDD abstract on women or sex/gender differences is accepted for a poster, oral session, or symposium at the 2013 annual meeting in San Diego, CA, June 15-20, 2013.
